<del></del>						
<del></del>						

- Area —I ne Forest aren, though o o square miles were added aren under Fuel and Fodder Reserves
- Management or State Forests.—The working plans prepared last year are to be given effect to as soon as the working season commences.
- PROTECTION OF FORESTS.—It is satisfactory to note that the Criminal Tribes and the Grassias, living near and in the Forests, continued to behave well. There was a marked decrease in the offences as compared with those for the corresponding period of last year, and the number of cattle impounded for illicit grazing was comparatively smaller.
- Sylviculture.—As there was good rainfall, all sorts of seedlings sprouted up in abundance, and sowing was also pretty successful.
- EXPLOITATION.—There was a slight fall in the quantity of major produce attributable to the fact that the period under report does not cover the working months of the year. The sale of fuel at Ahmedabad continued to be steady. But there was a marked decrease in the sales of minor produce, bamboo and grass.
- FINANCIAL RESULTS.—The department worked at a net profit of Rs. 9,354 out of which Rs. 660 were paid as compensation. The increase which is due to enhanced sale of fuel at Ahmedabad and Jodhpur depots is satisfactory.
  - ENERAL REMARKS.—The gardens were also placed under the supervision of Forest Department. Owing to fairly sufficient rains, improvements are being carried on in arboricultural operations and gardens.

R. B. P. SUKHDEO PRASHAD, B. A., C. I. E.,

Scnior Member, Mehkma Khas,

Raj Marwar.

### PROGRESS REPORT

OF

### FOREST ADMINISTRATION

IN THE

### MARWAR STATE

FOR

### the 6 months ending 30th September 1906.

### INTRODUCTION.

- (1) The forests yielded a net surplus of Re-9,354 as against Re-5,235 in the 6 months of 1905, the increase being due to the enhanced sales of fuel both at Ahmedabad and Jodhpur depots.
- (2) The famine concessions that were granted last year, continued till the rains set in.
- (3) A strip of land averaging 200° in width was reserved on both sides of the Jodhpur Railway from Luni to Barmer for the preservation and improvement of the wood, as also growth of grass (Fuel and Fodder Reserves). Sowings of Khejra (Prosopis spicigera) were also made in the area below and around Sardar Samand.
- (4) The state gardens at Mandore, Balsamand, Lalsagar, Ratanada Palace, Rai-ka-bagh, Takhatsagar, Soorsagar and Pawta were added to the charge

### CHAPTER 1.

### CONSTITUTION OF FORESTS.

### Section I .- Alteration in areas.

(5) 8.3 square miles were added to the area under Fuel and Fodder Reserves (para. 3 Supra), bringing the total area under the Forest Department to

(1)	Forest Con	servaney	•••	•••	275.11	Square miles.
(2)	Fuel and F	odder Reser	ves	•••	20. 0	do.
(3)	Jagir Fores	sts	•••	•••	70.37	do.
						_
			Total	•••	365.48	Square miles.
The area	stands classe	d as under:-				
Rese	rve Forests	•••	•••	***	Nil	
Prote	ected Forests	· · ·	•••	***	335.48	Square miles.
Unel	assed or pub	lic forest lar	d	•••	30.0	do.
Leas	ed forests	•••	•••	•••	Nil	do.
•		~	Tota	1	365.48	do.

### Section II.-Forest Settlement.

Nil.

### Section III .- Forest Demarcation.

(6) The replacement of Kacha pillars by masonry ones could not be undertaken for want of water near the boundary. The Kacha pillars were kept in good order.

Section IV .- Survey.

(7) 15 square miles of forests were further surveyed to a scale of 4" to a mile, costing Rs. 1,254-8-6 or Rs. 83-10-2 per square mile on an average.

### CHAPTER II.

MANAGEMENT OF STATE FORESTS.

### Section I .- Regulation of Management.

- (a) Preparation and Control of Working Plans,
- (8) Working Plans prepared last year will be put into effect during the next cold season.
- (9) The work of removal of trees killed by the frost of 1904 is not yet complete in Saran and Desuri forests, and the Working Plans for these forests shall have to be placed in abeyance till this is done.
  - (b) Preliminary Working Plans.

### Nil.

- (0) Plan of Operations.
- (10) A plan of operations was, as usual, prepared and acted up to.

Section II - Communications and Buildings.

- (a) Roads and Bridges.
- (11) No new roads were laid out; the old roads were repaired at a , cost of Rs. 10-13 in Sojat Range.

### (b) Buildings.

- (12) A permanent fuel yard was erected at Marwar Junction costing Re-5, -3-6; also some of the old buildings in Godhwar, Sojat and Siwana were repaired at a total cost of Re-35-14-0.
  - (c) Miscellaneous.

### Nil.

### Section III .- Protection of Forests.

### (a) General Protection.

(13) The criminal tribes surrounding the forests behaved well and so did the Grassias, the tribes inhabiting the state forests. 125 cases of forest offences were noticed as against 191 for the corresponding period last year.

Out of them 6 were chalaned to Hakumats; of them 4 received decision. In addition to the above, 7 cases were compounded by the Jagirdans of Ghanerao and Raipur.

(14) The following table gives a classification of the offences:—

Class of offences.			Average for past 3 years.	Offences during the period under report.	Remarks.	
Injury by fire	***	•••	•••	9	1	
Unauthorised felling or r	emoval of	f produce	•••	183	60	
" grazing	•••	•••	•••	66	46	
Other offences	•••		•••	62	25	
		Total	•••	320	132	

### (b) Protootion from fire.

(15) The protection from fire was satisfactory. There were 3 occurrences which burnt 660 acres, or ·3 per cent of the area, 2,14,707 acres, over which protection was attempted. The cost came to 0-7·4 per square mile. One fire crossed over from Scrohi forests, while the other two originated inside the Marwar forests.

### (c) Protection from cattle.

- (16) The whole of the area remained closed to sheep and goats throughout the period, and to the horned cattle during the rains. 5085 eattle, mostly sheep and goats, were impounded for illicit grazing, against 6,423 during the 6 months last year (April to September 1905), the decrease being due to the better season.
  - (d) Protoction against injuries from natural causes.
- (17) The forests were attacked by locusts during the rains; no effectual measures could be taken against them

Section IV.—Sylviculture.

(18) The rains were good and all sorts of seedlings came up in abundance.

The following table gives results of the areas hitherto coppiced:-Godwar Range. Length. Girth. 16'--8" (Kantia Dhay Æ" 17'-6" Sadri Kher 10" ••• (Kunntin 15'-3" 5″ (Dhav (Anogeissus pendula)... Kher (Acacia eateelau) ... Siris (Albizzia procera) ... 19'-9" 10" 18'-10" 10" Behra 21'—5" 10" 26'—6" (Gol (Odina wodier) ••• Sojat Range. Guda Dhamatau ... { Dhav ... ... ... ... ... ... ... ... | Bor (Zizyphus Zylopyra) ... ... | Kumatia (Acacia rupestris) ... 16'--3" 13'-5" 11.8" 15'-5" 8 · 2" | Dlinv | Bor 4'-- 9" Nimbri 6~5" (Kher 6-5"

1

### (b) Artificial Reproduction

- (19) There are no Taungya sowings, nor any regular plantations. As the rains were satisfactory, sowings of Dhav, Babul and other valuable species and plantings of Bamboo rhizomes were carried on in most of the forests with good results.
  - (c) Operations for the improvement of the growing stock.

Nil.

### (d) Experiments

Nil.

Section V .- Exploitation.

### (A) System of Management.

- (a) Major Forest produce
- (20) The forests are so far worked under "Permit system" which in most forests will however be replaced by "Coppice with standard" next cold season, when the working Plans are carried into effect.

### (b) Minor forest produce.

(21) It is generally leased out and has been let out this year. Salar (Boswellia thurifera) gum is being collected departmentally by way of experiment and the results will be given later on. Grazing is permitted under passes issued at the close of the rainy season, holding good till the rains come round.

### (B) Agency of exploitation.

- (a) Departmental agency.
- (22) The people around the State forests are mostly agricultural and poor classes unused to buying standing timber; the State agency has thus always to be employed.

The total quantity of major produce extracted by departmental agency during the pre-ent period came to 4,567 eft. of timber, and 2,97,185 eft. of fuel as against 6,674 eft. of timber and 2,23,264 eft. of fuel in the 6 months last year. The period under report does not include the working months of the year, and hence the fall in timber.

The sale of fuel at Ahmedabad continued to be steady and thus afforded opportunities for more fire-wood being extracted. In addition, minor produce to the value of Rs-1,993 as against 5,487 in the 6 months last year was exploited departmentally.

Sales of bamboos and grass were meagre as compared with the last year, and hence the fall.

On the whole, departmental operations brought in a sum of Rs 36207-9-6 which represents 89.7 p. c. of the gross revenue.

### (b) Purchasers.

(23) The system under which the purchasers remove the forest produce was explained last year (para 25).

The quantity of timber and fuel exploited by them during the present period is calculated to be 5,589 eft. and 15,033 eft. respectively as against 12,264 eft. of timber and 1,79,701 eft of fuel in the 6 months last year. The period under report consisted of only 3 working months, the other 3 months being rainy season when the forests were closed; hence the decrease.

The revenue collected from the sale of bamboos and other minor produce came to  $R\pm 21$  and R-336 respectively as against Rs. 386 and Rs. 1,034 in the 6 months last year.

### (c) Rights and Privileges.

(21) The rights and privileges in the State forests take the shape mostly of a reduction in the forest fee. 2,486 c. ft. of timber and 70,852 c. ft of fuel as against 6,968 and 82,230 c. ft. respectively in the 6 months last year were removed by the right-holders. The minor produce removed at reduced rates or free is estimated at Rs 337 as against Rs. 2,211 in the 6 months last year. The right-holders are mostly agricultural people whose demand both for timber and fuel is the greatest when the rabi operations are taken in hand. The rabi operations do not fall within the period; hence less quantity was removed by them.

### (d) Free Grants.

(25) The free grazing of horned cattle permitted last year on account of scarcity continued till the advent of the rains.

The minor produce granted free during the present period is valued at Rs. 571.

### (e) Outturn and Sources of Forest produce.

- (26) The total outturn of major produce is calculate 1 to be 12,642 c. ft. of timber and 4,15,070 c ft. of fuel as against 25,907 c. ft. and 4,85,199 c. ft. respectively in the 6 months has year; while that of the minor produce is valued at Rs. 3,261 including Rs. 1,961 for bumboos, Rs. 821 for miscellaneous minor produce and Rs. 179 for grazing as against Rs. 15,474 for the 6 months last year.
- (27) 184 cattle were newly admitted during the period under report in addition to those permitted to graze list year (pira. 29 of last year's report).
- (28) The total expenditure on the management of the State forests during the period under report was Rs. 23,068-7-6.

### CHAPTER III.

### FINANCIAL RESULTS.

(29) The income and expenditure of the period under report ar seompired with the figures for the 6 months last year and the average of last a years in the following return: —

Year.		Receipts.	Charges.	Surplus.	Remarks.
Present period	•••	lts 10,342	Rs. 30,988	Rs. 9,351	Out of the surplus Rs 660 were paid
(Six months) 1905-1906	***	21,102	18,867	5,235	to Jagirdars in com-
Average of 5 years	•••	29,101	21,535	7,566	pensarion.

- (30) The present period's revenue from major produce amounting to Rs. 31,414-6-3 or 77.9 per cent of the total, shows an increase of Rs. 15,518-2-3 over the 6 months of 1905.
- (31) Coming to the consideration of the agency of exploitation, it is seen that 95 per cent of the revenue from major and minor produce was obtained through State agency. Sales from minor produce including bamboos, grazing and fodder grass &c. yielded a total revenue of Rs. 7,459-7-6, showing an increase of Rs. 237-3-0 as compared with that for the 6 months of 1905. This sum represents 18.5 per cent of the total revenue of the present period. The miscellaneous revenue which amounts to 3.6 per cent of the total revenue shows an increase of Rs. 475 over the figures for 6 months lnst year.

The total expenditure for the present period amounted to Rs. 30,988 4-9, showing an increase of Rs. 12,121-7-3 over the 6 months last year; it was chiefly due to the extension of fuel works. 79 per cent of the total expenditure was incurred on extension, constitution, improvement, protection and exploitation; while the establishment charges amounted to 21 per cent of the whole.

The expenditure of the present period represents 76.81 per cent of the gross revenue, the proportion of the net to gross being 23.19 per cent

### CHAPTER IV.

### ADVINISTRATION.

(32) Forest Inspector Rakheswar assisted by ranger Daulat Ram, continued to work in the working Plans Branch. The Inspector was entrusted with the entire charge of the fuel and other sale Depots, both to render the Range officers free for other works and to ensure efficiency in the depot arrangements; and he carried on the work with energy and promptness.

Forest Rangers Gokal Chand and Chatur Bhuj held charge of the Godwar and Sojat Ranges respectively, and gave satisfaction.

- 'v (33) The Head Clerk Munshi Dasu Ram and the Reader Munshi Roop Namin and other office staff did their work satisfactorily.
- (34) The relations with the Revenue Department were perfectly smooth and harmonious. The Hakims of Desuri, Bali, and Sojat continued to help the Forest staff as before, for which thanks are due to them.
- (35) The conduct of the foresters, Head guards, and guards was good enough, hardly calling for any adverse comment.
  - (36) The supply of Sowars by the Jagir Bakshi was a little better.

### CHAPTER V.

### GENERAL.

### Section A .- General Remarks.

(37) No new grass was stored. From the 22,177 maunds of grass in hand at the close of the year, 9,490 maunds were further given away, leaving a balance of 12,687 maunds.

### Section B .- Fuel and Fodder Reserves.

(38) A strip of land averaging 200' in width was reserved along the Jodhpur-Bikaner Railway (para 3 supra); and the area under this head is distributed as under:—

Name.				Ar	ea in Bighas.
Banbholai	•••	•••	•••		1,800
Sampa	•••	•••	•••		554
Sowania	•••	•••	•••	•••	137
Deoli	•••	•••	•••	••	1,400
Udesi Kua	•••	•••	•••	•••	1,329
Khamal	•••	***	•••	•••	295
Sadawas	•••	•••	•••	•••	78}

Pali		•••	•••	***	6,100
Nunaguou		•••	•••	•••	100
Luni Barmer s	a <b>r</b> en	•••	•••	•••	13,280

- (39) Sowings of Khejra, Babul, and other suitable species were made in all the reserves and the seedlings are doing well.
- (40) The rains being satisfactory, the old trees and shrubs are fairly on way to reconjunent.
  - (41) The revenue and expenditure under this head stood as under: -

Revenue	••	***	•••	Rs.	0 0	0
Expenditure		•••	***	.,	350 12	6

### Section C .- Arboriculture.

- (42) 2,374 plants were put out by way of filling up old gaps. The plantations around the Ratanada Palace, the Raikabagh and Chandmani roads absorbed the greater part of them, repairs in other places being indeed few.
- (43) The nurseries at Ratanada, Plantation No. 8, and Colonel Loeh's well were, in view of the satisfactory rain-fall, further extended. There were 6,128 plants in the various nurseries at the end of the period under review:—

Nım	•••	•••	••	•••	3,706

Miscellaneous	•••	***	•••	17	32	14	3
		Total	•••	97	4,360	10	3

### Section D .- Gardens.

- (46) The State gardens were added to the charge (para 4 supra).
- (47) It was proposed to sink 3 new wells in the Takhatsagar garden in order to render it independent of the Kailana Bund water. The wells are being dug in by the Engineering Department. This will be a decided improvement.

In Balsamand, the tops of two wells were raised; and a saving of 4 pairs of bullocks effected in the water lifting power employed.

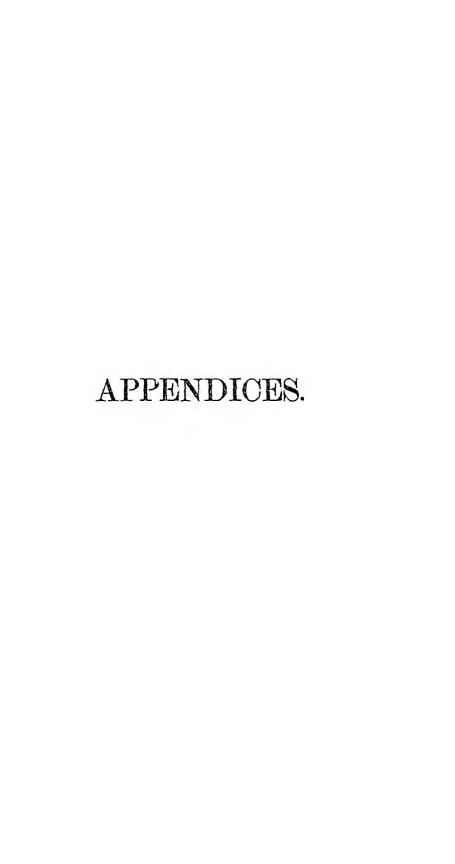

- (18) Every garden had a number of dead and dying trees standing; they were all removed and the gardens rendered neat and tidy.
- (49) Two nurseries were newly established, one at Balsamand and the other at Takhatsagar to rear plants for re-stocking the various gardens. They consist mostly of Am, Jaman and other fruit trees.
- (50) 800 plants, mostly fruit trees, were planted out in Balsamand, and roses, gul-mohars and other flower plants were put out more or less in almost all the gardens.
  - (51) The revenue and expenditure under this head came to:—

    Revenue ... its 3,264-4-0

    Expenditure ... , 16,241-4-0
